Centre of Autism and Intellectually Disabled

Project 1: Land Purchase Completion

History

We began with a vision in 2012 to help purchase land for our Centre of Autism and Mentally Challenged — a safe, inclusive space where children can learn, grow, and thrive. Through faith, love, and perseverance, we made progress, but the full purchase of land was halted due to limited funds at that time. Now, we're resuming to finish paying the land off and your support can make the dream come true!

Our Current Need:

To purchase the remaining land for the Centre of Autism and Mentally Challenged our goal is to raise \$7,500 to finally finish paying it off. This will not only give us full possession of the land and the building we made, it will also free some finances to help for other needs. Every contribution will go directly toward securing the property that will serve as a foundation for hope, care, and opportunity for children in need.

Join us in creating a place where every child is seen, loved, and empowered.

Total Cost: 7,500
